## 收录和检索号检索指引

### 目录

一、 SCI、SSCI、CPCI 和 A&HCI 收录和检索号检索方法.....	2
二、 EI 收录和检索号检索方法.....	5
三、 CSCD 收录和检索号检索方法.....	7

## 一、SCI、SSCI、CPCI 和 A&HCI 收录和检索号检索方法

【注】以下只给出 SCI 检索示例，SSCI、CPCI 和 A&HCI 的检索方法相同：

1. 通过 SCI、SSCI、CPCI、和 A&HCI 数据库简介页链接可以直接进入对应数据库：  
进入数据库页面后，请确认是否勾选正确子库：

The screenshot displays the Web of Science search interface. At the top, there are navigation links for various services like InCites, Journal Citation Reports, and Essential Science Indicators. The main header includes the 'Web of Science' logo and the Clarivate Analytics logo. A search bar contains the example query 'oil spill\* mediterranean'. Below the search bar, there are options for '时间跨度' (Time Span) set to '所有年份 (1900 - 2019)' and '更多设置' (More Settings). The '更多设置' section is highlighted with an orange box and contains the following options:

- Web of Science 核心合集: 引文索引
  - Science Citation Index Expanded (SCI-EXPANDED) --1900年至今 **SCI**
  - Social Sciences Citation Index (SSCI) --1900年至今 **SSCI**
  - Arts & Humanities Citation Index (A&HCI) --1975年至今 **A&HCI**
  - Conference Proceedings Citation Index- Science (CPCI-S) --2001年至今 **CPCI**
  - Emerging Sources Citation Index (ESCI) --2015年至今
- Web of Science 核心合集: 化学索引
  - Current Chemical Reactions (CCR-EXPANDED) --1986年至今  
(包括 Institut National de la Propriete Industrielle 化学结构数据, 可回溯至 1840 年)
  - Index Chemicus (IC) --1993年至今

Additional interface elements include a '检索前' (Search Before) warning box stating '确认已选择【WOS核心合集】' (Confirm you have selected [WOS Core Collection]), a 'Claim your publications' button, and a search button labeled '检索' (Search). The bottom left corner shows the '最新更新日期 2019-08-30' (Last updated date 2019-08-30).

## 2. 检索文献：（图例：SCI 检索方法）

The screenshot shows the Web of Science search interface. At the top, there are navigation links for various databases and user options. The main search area includes a search bar with the text 'Field Emission Properties of Molybdenum Nanoparticles Decorated ZnO Nan' and a dropdown menu set to '标题'. Below the search bar, there are options for '时间跨度' (Time Span) set to '所有年份 (1900-2019)' and '更多设置' (More Settings). Under '更多设置', there are two sections: 'Web of Science 核心合集: 引文索引' (Web of Science Core Collection: Citation Index) and 'Web of Science 核心合集: 化学索引' (Web of Science Core Collection: Chemistry Index). In the '引文索引' section, 'Science Citation Index Expanded (SCI-EXPANDED) --1900年至今' is selected. In the '化学索引' section, 'Current Chemical Reactions (CCR-EXPANDED) --1986年至今' is selected. The '检索' (Search) button is highlighted. Below the search bar, there are options for '自动建议的出版物名称' (Suggested Publication Name) set to '打开' and '默认情况下显示的检索字段数' (Number of Search Fields Displayed by Default) set to '1 个字段 (主题)'. The page also includes a 'Claim your publications' button and a '最新更新日期' (Last Update Date) of 2019-08-30.

【注】SCI、SSCI、CPCI 和 A&HCI 每次只勾选一个子库，以保证数据库收录正确性。

## 3. 点击“检索”，出现题录信息如下：

The screenshot shows the Web of Science search results page. The search results are displayed in a list format. The first result is highlighted in yellow and has a red box around it. The title of the result is 'Field Emission Properties of Molybdenum Nanoparticles Decorated ZnO Nanorod Arrays'. Below the title, the authors are listed as 'Cao, Pei-Jiang; Yang, Zhi-Bo; Rao, Ch N.; 等.' and the journal information is 'JOURNAL OF NANOSCIENCE AND NANOTECHNOLOGY 卷: 19 期: 12 页: 8135-8142 出版年: DEC 2019'. There are buttons for '出版商处的全文' (Full Text from Publisher) and '查看摘要' (View Abstract). The page also includes a '检索' (Search) button and a '最新更新日期' (Last Update Date) of 2019-08-30. The search results are sorted by '日期' (Date) and there are options for '选择页面' (Select Page), '导出...' (Export...), and '添加到标记结果列表' (Add to Marked Results List). The page also includes a '分析检索结果' (Analyze Search Results) button and a '创建引文报告' (Create Citation Report) button. The search results are displayed in a list format with a '排序方式' (Sort By) dropdown menu and a '显示' (Display) dropdown menu.

**摘要**  
Precisely controlled dimensions of heterostructured ZnO nanorod arrays were grown on micro-patterned Au films supported by Si substrate using chemical vapor deposition (CVD). The field emission properties were attributed to pointed nanorods, thickness of catalyst, preferential growth, density, morphology of ZnO and Molybdenum (Mo) decorated ZnO nanorod arrays (Mo/ZnO). The selective restrained heterostructure approach resulted in excellent control over periodicity, location and density of ZnO nanorod arrays. Overall, field emission properties of bare ZnO nanorod arrays showed a lowturn-on field of similar to 4.1 V/μm and a high field enhancement factor (beta) similar to 1686 to 7.3 V/μm and (beta) similar to 807 for Mo/ZnO. It was also found that the field emission properties were significantly influenced by densely decorated Mo nanoparticles on as-grown ZnO nanorod arrays.

### 三、CSCD 收录和检索号检索方法

#### 1. 通过数据库简介页进入 CSCD 页面，确认已正确选择 CSCD 数据库：

The screenshot shows the Web of Science search page. At the top, there is a navigation bar with various databases and a search bar. Below the navigation bar, the '选择数据库' (Select Database) dropdown is set to '中国科学引文数据库<sup>SM</sup>' (CSCD). The search input field contains the text '纽约包容性城市规划经验对我国的借鉴' (Learning from the Experience of Inclusive Urban Planning in New York City). The search button is labeled '检索' (Search). Below the search input, there are options for '时间跨度' (Time Span) set to '所有年份 (1989 - 2019)', '更多设置' (More Settings), and '引文索引' (Citation Index) set to '中国科学引文数据库 (CSCD) --1989年至今' (CSCD --1989 to present).

#### 2. CSCD 收录及检索号：

The screenshot shows the search results page for the article '纽约包容性城市规划经验对我国的借鉴' (Learning from the Experience of Inclusive Urban Planning in New York City). The results are sorted by '日期' (Date) and show 1 result. The article details include the authors '黄建欣; 宋彦; 高文秀; 等' (Huang Jianxin; Song Yan; Gao Wenxiu; et al.), the journal '城市发展研究' (Urban Studies), volume 26, issue 6, pages 45-51, 86, published in 2019. The article is highlighted with a red box, and a red arrow points to the title with the text '点击题名进入详细页' (Click the title to enter the detailed page).

**摘要**  
This paper reviews the content of inclusive city planning in the Master Plan of New York City (2015-2040), aiming to provide reference for China's inclusive city planning from the macro vision to specific strategies and actions. Based on the practice of inclusive planning in New York City in protecting vulnerable groups, ecological inclusive construction and public participation, this paper aims at its multi-dimensional implementation content and guarantee mechanism, and finally puts forward feasible improvement measures in combination with the actual situation of urban planning in China.  
摘要: 梳理美国纽约市总体规划(2015-2040)中关于包容性城市规划内容,旨在为我国包容性城市规划从宏观愿景细化为具体策略和行动提供方法借鉴。基于纽约市包容性规划在保护弱势群体、生态包容性建设和公共参与等方面的实践,针对其多维度的实施内容和保障机制,最后结合我国城市规划的实际情况提出可操作性的改善措施。
